PHILIPPINE PROMISE. MORE LAND IS OPENED

parliament Is to Be Established in the Archipelago Walter Lake Indian Reservation Located Upon.

DURING NEXT SPRING SETTLERS ARE SWIFT

There Are to Be Two Houses, and Steeds Ridden Until They Fell Exhausted, Automobiles Stalled in Sand and "Sooners" Entered Night Before.

Washington, Oct. 30.—The president is prepared to redeem his promise made to the Philippine people through Secretary Taft that they shall have a parliament of their own, conditioned upon good behavior for a term of two years, and it is understood Secretary Taft will proceed to the Philippines next spring to witness the installation of the new form of representative government.

March 27, 1905, the Philippine census was published, and consequently two years from that day, March 27, 1907, under the terms of an act of congress, the president will direct the Philippine commission to call a general election for choice of delegates to what will be known as the Philippine assembly. This body is to take over all the legislative powers heretofore exercised by the Philippine commission in all that part of the archipelago not inhabited by Moros or non-Christian tribes.

The new assembly or legislature will consist of two houses to be known as the Philippine commission and Philippine assembly, the latter to consist of not less than fifty nor more than 100 members. It is probable the present commissions will be merged into the upper house.

FIRST ANNIVERSARY.

Precautions Were Taken to Prevent Any Riotous Scenes.

St. Petersburg, Oct. 30.—The morning of the first anniversary of the proclamation of the imperial manifesto giving a constitution to Russia, passed off in St. Petersburg without any disorder being reported. Te Deums were sung in the cathedrals and churches and only small crowds of people were to be seen in the flag decorated streets, many of the residents deciding to stay indoors, owing to fear of becoming involved in trouble. Students in uniform were conspicuously absent as the result of warning issued at a meeting held in the university that bands of reactionary rowdies had been formed to beat pedestrians in student garb.

The garrison of the city was distributed in accordance with emergency regulations for preserving order. Large forces of infantry and cavalry were concentrated in the vicinity of Kahan cathedral, whose portico was guarded by soldiers, and large numbers of troops gathered in the neighborhood of university, but military were kept out of sight so far as possible in the interior of the courts and in buildings. Special guards were stationed at all railway stations.

There was a collision Monday night between a detachment of troops and a large crowd, which had gathered at a fire in the industrial district of Schlussberg. Some of the rowdies cut the fire hose, drove the firemen away and begun plundering, whereupon soldiers fired a volley in the air and dispersed the crowd without any casualties. Otherwise the night passed quietly.

Eleven to Thirteen Points.

New York, Oct. 30.—Cotton market on Tuesday opened steady at advance of 11 to 13 points.

J. P. Amsden, president of the Louisville and Atlantic railroad, died at Lexington, Ky.

Thorne, Nev., Oct. 30.—With the firing of a mighty blast of dynamite from the top of Grant peak, the highest point in the adjacent mountains, the Walter Lake Indian reservation was opened at noon Monday.

At the given signal, hundreds of searchers for gold hurried helter skelter over the boundary lines of plain and mountain, and before the great cloud of smoke which rose into the air from the dynamite explosion had drifted away a spectacular race of automobiles, race horses and vehicles was on. So great was the rush across the desert from the line nearest Hawthorne that a number of persons narrowly escaped being trampled over, and in numerous instances injuries were reported. Horses were ridden until they dropped and automobiles became stalled in the deep sands. Jaded and overcome by thirst, numbers of prospectors barely summoned strength to make their locations.

Those who had waited for the signal from the top of Mount Grant before rushing into the reservation found that all the most valuable claims in the vicinity of the rich Dutchman's cottonwood and numerous other creeks emptying into the southwestern sections of Walter lake, had been taken up by men who had rushed in during the night before, contrary to law. Even men who employed launches to take them across Walter lake from the eastern side found that their efforts were of no avail, as they were much too late to be on equal footing with the men who had disregarded the law.

The opening of the reservation was not as imposing as it promised to be on account of the fact that countless numbers of miners had flocked in during the night and early morning, completely overwhelming the Indian police, of whom there was but fourteen to guard seventy-five miles of territory.

Special Land Agent Parks deplors the fact that the rush was allowed to take place when it was known that the laws of the United States in regard to opening a reservation had been evaded. He says there is yet a possibility that the present opening may be declared invalid and a new one called for.

PRESS OPINION.

Anti-Japanese Agitation Has Been Started, Paper Says.

St. Petersburg, Oct. 30.—The Novoye Vremya, in a leading article on Japanese-American relations, declares that "yesterday's friends have begun to quarrel," and asserted that the anti-Japanese agitation has been started in the United States in response to the anti-Americanism in Japan, causing a friction which may easily be fanned into war.

QUIETING EFFECT.

Explanation About Japanese Pupils at San Francisco Acceptable.

Washington, Oct. 30.—Secretary Root has received the following cablegram from Ambassador Wright, dated Tokyo: "Substance of your telegram of 23d given to the press by the Japanese government, has been received with satisfaction by the Japanese people and has had a very quieting effect."

MORE ABOUT A SEWERAGE SYSTEM

Engineer Here from Houston Investigating—Thinks Favorably of the Situation.

Mr. Fenwick Kendall of the firm of Fenwick & Kendall, civil engineers, was here from Houston yesterday for the purpose of looking over the situation with reference to the need and practicability of establishing a sewerage system in Bryan. Mr. Kendall called on The Eagle after making his investigations and stated that he was well pleased with the town, the natural location of which could not be improved upon for sewerage purposes, the only question being a water supply, and this he believes could be obtained by putting forth the proper effort. Mr. Kendall did not go into his plans for establishing the enterprise, at any great length, but we learn they are along the lines heretofore presented by Mr. R. Batte, Jr., requiring only a stated amount of patronage and franchises. He talked with a number of persons, including Mr. Law, secretary of the Business League, who invited him to submit a proposition to the League.

As soon as the trolley line is well under way The Eagle thinks that an adequate water supply and a good sewerage system are the

MAJOR ADAMS WOULD SERVE AGAIN.

The Houston Post contains the following relative to Major Cliff A. Adams, penitentiary inspector, who has filled this place efficiently and with credit to himself and the state during the past several years and who, if reappointed by the incoming administration will continue his capable services. His friends at home and throughout the state would appreciate his reappointment.

The Post says:

Cliff A. Adams inspector of penitentiaries, who has charge of the southern division, spent yesterday at the Brazos hotel in this city. Mr. Adams has been with the penal system throughout the term of Governor Lanham, and he has fitted into the position very nicely. He tried being purchasing agent for a while, but that did not suit him, and so he dropped into this niche of the state service and he has found it to his liking. His friends want to see him reappointed when Governor Campbell becomes the executive, and pressure will be brought to bear in his behalf. If the governor wants him to stay, Mr Adams will accept because of the satisfaction he gets out of the duty he has to perform.

Thursday there will be a transfer of 200 convicts through Houston to the Clemens farm in Brazoria county. It is a State farm on which a large crop of cane has been produced this year, and the cane is now about ready to cut. The transfer agents will move the men Thursday and Mr. Adams will accompany them.

SANDIFER-GALLATIN.

Mr. A. B. Sandifer and Miss Pearl Gallatin stole a march on their friends last evening, and going to the Presbyterian manse, were quietly married by the pastor, Dr. J. D. West. Following the ceremony they went to the residence of Mr. and Mrs. T. H. Spell, where they are at home.

The bride is a charming young lady, a daughter of Mr. Tom Gallatin, and was reared in the Tabor community.

Mr. Sandifer has made his home in Bryan several years. He is a nephew of Mr. Thos. Sandifer and is a cousin of Mrs. J. C. Bennett. He is an industrious young man and holds a position with the Bryan Steam Laundry.

The Eagle joins the many friends of the young couple in wishing them abundant happiness.

AWAIT ANGUS.

Dozen White Men Are Said to Have Joined Ute Indians.

Sheridan, Wyo., Oct. 30.—A closing in by soldiers on the renegade Ute Indians, now encamped on Powder river, was deferred on account of the non-arrival of Col. Angus, in command of the Sixth cavalry. A dozen white men are said to have joined the Utes.

BEHIND CLOSED DOORS.

Woman's Christian Temperance Union Holds a Secret Session.

Hartford, Oct. 30.—Contrary to custom, the meeting of the national convention of the Woman's Christian Temperance Union was held behind closed doors Monday. Several matters were disposed of. Speakers at the general meeting included Mrs. Lucy Thurman of Michigan, whose topic was "Work Among the Colored People."

TRAINS COLLIDE.

One on the Iron Mountain Runs Into Rear of Another.

Little Rock, Oct. 30.—A rear-end collision of passenger trains on the Iron Mountain railroad occurred at Tuckerman. The Hot Springs special had stopped and No. 17 ran into the rear end of it. Several passengers were slightly hurt. T. L. Summerhouse of Little Rock and Miss Burke of Washington City were painfully injured.

TO ESCAPE MOB.

Four Negroes Taken to Penitentiary for Safe Keeping.

Little Rock, Oct. 30.—The sheriff of Conway county brought four negroes to the state penitentiary, where they are held to escape the fury of a mob. The negroes fired upon several white people near Morrilton. Will Moore, a white man, was killed and Joe Jones was wounded. The sheriff had difficulty in getting his prisoners across the river. A mob had assembled on the bank of the stream, but an attempt at lynching was foiled.

Land to Be Sold.

Washington, Oct. 30.—The general land office has directed that 2,560 acres of land in Fort Elliot military reservation in Wheeler county, Texas, be sold at public auction on Nov. 1. The reservation has been abandoned by the government.

Washington, D. C. Oct. 26. '06.
Special Correspondence.

The work of Representative Jno. Gains on the democratic campaign text-book is of the highest order. His masterly handling of the subject of the tariff ought to convince many voters who did not have a clear idea of the subject before of the evils of a high tariff and the urgent need of tariff reform.

The republican office seeker will now proceed to explain to his audience that it is absolutely necessary for them to see him safely landed in the particular place he desires, if they want to show their approval of any of the acts of Mr. Roosevelt.

A glance at the figures in the election last fall for mayor of New York City shows that Hearst's chances of being elected governor on the fusion ticket are very bright. Tammany's vote will this year be cast for the young editor, while last year it went largely to McClellan. Moreover, Hearst has a host of followers all over the state.

Charles E. Hughes has been to Washington to get some pointers from the president on how to run his campaign for governor of New York. It is not known whether Mr. Roosevelt advised him to start out by attempting to revise the pronunciation of ordinary English words, or to try to simplify the Arabic notation.

Senator Tillman said to an audience of his neighbors down in South Carolina, that he was going up north for a while and tell some of his political enemies what he thought of them and make them pay him a good round sum for giving them the chance to listen to him. Well, he went and talked to them for 100 nights at \$250.00 a night. Reports say that the people were so well pleased with him that they want him to come again on the same terms.

Some of the republican journals are condemning the alleged free manner in which Mr. Hearst is making use of money in his campaign. It is a safe wager that he didn't get the money from corporations and insurance companies.

Chairman Jim Sherman of the republican congressional campaign committee is professing to take a great interest in the cause of the union men in the government printing office. Mr. Sherman's interest comes a little late, however, for he turned a deaf ear to labor's complaints in the last session of congress, and the American Federation of Labor proposes to defeat him for re-election if it can possibly do so.

Six men took a unique examination recently at the navy department. They were competing for appointments as finger experts of the U. S. navy. The successful candidates will aid in installing the Pudd'n Head Wilson system of identification in the navy. The salary of a finger expert is \$1,800 per year.

The United States Army has adopted a new bullet. Instead of the rounded point of the present bullet, it has a long straight tapering point and is 1-3 lighter, weighing about 150 grains. It has a greater velocity up to 2000 yards, a greater energy up to 1400 yards, and a better accuracy up to 2000 yards.

The U. S. supreme court will take up a number of cases of national interest in the coming term. Among others are that of the miners who are charged with the assassination of Governor Steunenberg of Idaho; of Albert Patrick of New York, who is attempting to escape the death penalty; and the famous Isle of Pines case, which is to decide whether this island is foreign territory or not.

The Cuban situation has delayed for a time the government's active prosecution of the Standard Oil Co. The wheels of justice are in motion again, however, and the people are anxiously waiting to see whether the Standard Oil Company will be entangled and ground up by its machinery, or will bob up serenely after having passed thru the mill none the worse for wear as it usually does.

The "come on" center of gravity will shortly shift to Houston for the carnival season and then Bryan will shine.

Dallas comes to the front with a 5 cent murder, resulting from a dispute about that much change in a barber shop. The state will never be able to dispose of the case on a nickle basis, however.

San Francisco appears to be in a bad way with her municipal affairs, at a time too when the most efficient government is demanded to retrieve her losses in the earthquake disaster.

The total attendance for the fifteen days of the Dallas fair is estimated at 750,000 people. It has been the most successful season in twenty-one years history of the enterprise.

A resident of Louisiana suggests to Secretary Bonaparte that the United States force the tough and undesirable element into war with some "vicious nation" that they might be killed off. Louisiana, as well as other states, has the proper remedy right at home: Let the county peace officer establish a junta at the base of a substantial rock pile and urge insurgents against honest work to pick out a tolerably heavy hammer and join the junta. More rigid enforcement of local vagrancy laws and less talk about reform of a national scope will produce the desired result.—Ft. Worth Star.

DANGERS FROM DYSPEPSIA.

Imperfect Digestion Most Prolific Cause of Serious Disease.

Few people seem to realize the real dangers, in disturbed, deficient or defective digestion.

While health reports do not give digestion as a cause of death, yet in reality often fatal, as it so weakens the stomach that one becomes readily susceptible to an attack of typhoid fever, kidney disease, nervous prostration or other serious or fatal disease.

At the first symptom of indigestion, Mi-o-na stomach tablets should be used. If there is a feeling of heaviness in the stomach, distress after eating, nervousness, dizziness, nausea, headaches, sleeplessness, pains in the side and limbs, specks before the eyes or a peevish irritable condition, with debility and weakness, begin the use of Mi-o-na at once.

It will build up the stomach and digestive organs so that you can eat anything at any time without fear of distress or indigestion.

A 50-cent box of Mi-o-na tablets will, in most cases, give prompt relief and cure although in chronic and long standing weakness of the stomach, two boxes or more are sometimes needed, but E. J. Jenkins gives a guarantee that Mi-o-na will cure, in all cases, no matter how chronic or serious, or money will be refunded. You run no risk whatever in buying Mi-o-na.

THE MEERSCHAUM PIPE.

It Was Invented by Kaval Kowates, a Peshth Shoemaker.

Kaval Kowates, a Peshth shoemaker, invented the meerschaum pipe. He died in 1764. A large piece of meerschaum was brought to Peshth by Count Andrassy in 1723. It had been given to the count in Turkey. He fetched it home because, as a piece of white clay of extraordinarily light specific gravity, it pleased him.

Kaval Kowates was noted in Peshth for his skill in carving, and Count Andrassy took his chunk of light white clay to him and said:

"Make, fellow, something pretty out of this."

The ingenious Kaval, a great smoker, thought that the porousness of the white clay adapted it well for pipes, and accordingly he made two from it, one for himself and one for Count Andrassy.

The pipes were charming, and they smoked superbly. The fame of them spread. In course of time meerschaum mining and meerschaum pipe making became two of the recognized industries of the world.

The original Kaval Kowates pipe, the world's first meerschaum, is still preserved in the Peshth museum.

PARTIAL SUSPENSION.

Important Emergency Order, issued by the Railroad Commission.

Austin, Oct. 26.—The railroad commission has issued a most important emergency order, suspending in part compress rules and regulations. It is as follows:

"In view of the information having come to the railroad commission to the effect that at numerous compress points in this state transit of cotton as well as cotton for concentration is not promptly unloaded upon arrival at such compress points and that cars of railroad companies are being tied up and used as warehouses, much to the disadvantage and injury of railroad companies and shippers of the state, which, in the opinion of this commission, creates an emergency for speedy and immediate relief, it is therefore ordered by the railroad commission of Texas that the rules and regulations as contained in commodity tariff No. 1-E, and relating to compression and concentration of cotton, be and the same are hereby suspended until further notice, insofar as they require that cotton shall in all cases be compressed or concentrated at origin or at first compress point in transit; also those portions of such rules and regulations that require compression of transit cotton at a point seventy miles or more from destination and the concentration of cotton at points 100 miles or more from the gulf coast.

The effect of the above suspension will be to allow all railroad companies to compress or concentrate at any available compress point on the air line, including Houston and Galveston, and to assume the cost of compression. The order is now in effect and will remain in force until further notice.

EXTRADITION MATTER.

Delegation of Del Rio Citizens Confer With the Governor.

Austin, Oct. 26.—A delegation of citizens from Del Rio, headed by Judge Gillis, conferred with the governor regarding the extradition of several Mexicans who are in jail at that point charged with robbery, etc. The real cause is that they were instrumental in inciting the recent revolution. Judge Gillis wants the matter investigated before extradition papers are issued. Governor Lanham is also desirous of having the matter fully investigated and has requested Judge Thomas of that district to pass on the cases and then furnish him with the facts. Some cases may not be of an extraditable nature, and that is why diligent inquiry will be made. Requisition papers have been received from Mexico for all parties under arrest.

VANZANDT RE-ELECTED.

Again Chosen Commander of the United Confederate Veterans.

Dallas, Oct. 26.—By unanimous vote General K. M. Vanzandt was re-elected major general and commander of the Texas division of the United Confederate Veterans. In the fair grounds auditorium Senator Culberson addressed the veterans in an eloquent speech. His references to the Lost Cause and those who bravely battled for the stars and bars were most enthusiastically applauded.

George Boynton, an aged negro, who was with his master in the Eighty-fourth Georgia and a member of Camp Sterling Price of this city, attracted much attention. With a gray cap and several badges and a chicken in a sack over his back, George mingled with the veterans, telling how he foraged while the soldiers "ft." "I would locate a hen roost," said he, "in the daytime, and at night the chickens would be in our camp." The old dorky has been substantially remembered during the reunion.

Following were elected brigade commanders: First district, T. J. Gibson, Waxahachie; Second, T. J. Logan, San Antonio; Third, F. T. Roche, Georgetown; Fourth, W. B. Berry, Brooks; Fifth, John S. Napier, Amarillo. Bowie was selected as next meeting place.

Heart Palpitation

Indigestion causes the stomach to expand—swell and puff up against the heart. This crowds the heart and interferes with its action, causing shortness of breath, palpitation of the heart, etc.

Mr. Jacob Frank, a prominent business man of St. Louis, says:

"Your remedy cured me of one of the most obstinate cases of eczema that I have ever known or heard of. My case was of four years' standing on both hands, and had been pronounced incurable by leading skin specialists and physicians of this city. Like all sufferers of itching skin diseases, I tried all remedies that were recommended to me, and found absolutely nothing that did me any good until ZEMO was used. I will be pleased to write any sufferer who doubts this statement. Yours very truly, JACOB FRANK, Pres. Frank Merc. Co., 822 N. 6th St., St. Louis.

CULTURE OF HUMANS.

Candidates For Matrimony Must Con- Up to Standard.

Chicago, Oct. 30.—Wedding bells will ring only for those happy young persons who succeed in passing a state inspection test, if the ideas of the American Stock Breeders' association are carried out. The association has turned off the moment from the consideration of cattle, sheep and hogs to the culture of humans, and it will be the ultimate business of the committee of eugenics, just appointed, to keep an eye for ill-mated pairs. A marriage censorship may result if the inspection idea proves practicable.

Professor C. R. Henderson of the University of Chicago's sociology department is a member of the committee of which Dr. Alexander Graham Bell is chairman. Other members appointed by Secretary William M. Hayes of the association are Dr. Charles Woodruff, C. W. Ward of New York and Rev. J. F. Gilbert of Washington. To improve the quality of humans is to be the task of the eugenics experts.

The immediate object of the committee, as explained by Professor Henderson, is to spread information in regard to the ill effects of the marriage of defective persons, including "imbeciles, idiots and feeble-minded." In sane persons, confirmed drunkards and moral degenerates are to be restrained in colonies and kept from marrying.

"THE CLANSMAN" BLAMED.

Its Production Said to Be Responsible For Racial Trouble.

Nashville, Oct. 30.—A Brookhaven, Miss., dispatch to the Banner says: As the result of the production of "The Clansman" in this city last week, and threats circulated by whites that a Ku Klux Klan was being organized here to drive the negroes from the community, the blacks are said to have started a series of depredations on the whites.

News has reached here from Bear Creek in Lincoln county that Bud Godbold, a young white farmer, was fired upon by negro whitecaps while riding in a lonely stretch of woods. His horse was killed, but Godbold escaped injury. According to Godbold's story a white man unknown to him was riding 100 yards behind him and was simultaneously attacked by black whitecaps. His fate is not known. Officers have gone to the scene of the ambush.

A story circulated that the whites would form a Ku Klux Klan was done as a joke, it is asserted, but the blacks took the jokers at their word, and are reported organizing. Excitement here is intense over the affair.

SHOOTING AT AUSTIN.

Traveling Man Seriously Wounds Manager of Packing House.

Austin, Oct. 30.—Robert F. Curtis, a well known traveling man, at an early hour Tuesday morning shot and seriously wounded Adolph Goldman, manager for Nelson, Morris & Co., here. Curtis returned home unexpectedly and found, it is alleged, Goldman in his bedroom and began shooting. Four shots took effect in Goldman's body, one of which penetrated a thigh. Physicians declare he may recover if blood poison does not set in. Curtis was arrested and waived preliminary examination. His body was fixed at \$500. Both are married men.

Governor Lanham received the certificate of disqualification from District Judge Mullally of Webb county in the poll tax muddle. He appointed District Judge E. A. Stevens of Rockport to preside in the case.

COMPLAINT FILED.

Unfair and Illegal Wheat Rates of Railways Alleged.

Guthrie, Oct. 30.—The complaint of Oklahoma, by W. O. Cromwell, the attorney general, against fifteen railroads, being all trunk lines to gulf points, alleging unfair and illegal rates on wheat in car load lots, has been filed with the interstate commerce commission at Washington. The complaint declares that on carload lots a reasonable charge on wheat from Oklahoma points to Galveston is not more than five mills a ton mile, whereas the rate actually charged is 7.75 mills a ton mile. The cost to the railroad companies is estimated to be not more than 2½ mills a ton per mile.

Attention is called to the fact that the defendant railroads charge more for the same relative distances in Oklahoma than in other states. The rate on wheat in carload lots from Sugden and Ryan, I. T., to Galveston is 15 cents a hundredweight. Northward, 103 miles at El Reno the rate is 30½¢, where the rate reasonably should be 20 cents. Discrimination in rates as between other states and Oklahoma is alleged.

OVER ONE BILLION.

Sixty Million Dollars Is the Approximate Increase.

Austin, Oct. 30.—With but five counties to still hear from, the tax rolls show that the increase in assessed values for this year over last will be approximately \$60,000,000, which means that the grand total of taxable values in Texas is on the rolls at \$1,200,000,000. Last year the assessed values totaled \$1,139,000,000. An increase of approximately \$60,000,000 will make the total indicated.

The figures given do not include the \$50,000,000 of assessed values placed on the rolls as a result of the values ascertained by the state tax board in assessing the intangible assets of certain corporations in this state.

GOES THROUGH BRIDGE.

Engineer Loses Life and Fireman Escapes by Jumping.

Hugo, I. T., Oct. 30.—The engine of a southbound freight train on the Frisco went through a bridge a mile north of Hamden, I. T., Monday morning.

Engineer W. R. Martin was killed. The fireman and headbrakeman saved themselves by jumping. The bridge had been recently damaged by fire, which caused a freight wreck two weeks ago, and was being repaired. The bridge gang had jackscrews under it and had sent back behind twelve telegraph poles to flag the freight, but the air brakes failed to work.

KRAUS KILLED.

Deplorable Accident in Which Young Man Loses His Life.

Lawton, Okla., Oct. 30.—John Kraus, a young man, was accidentally shot by Dr. Flexner of Lawton. The shot entered the vitals of the young man and he lived but five minutes.

Kraus, Dr. Flexner and Fred Ellis were hunting quails in a field a few miles east of Kraus' home. The dogs shied a covey of quails a few yards ahead and the party separated. Kraus going around the covey and in front of Flexner. When the covey flew and Flexner acted the shot took effect in the body of Kraus.

DOCTOR HELD UP.

Relieved of Small Sum and Ordered to Get Away Fast.

Paris, Tex., Oct. 30.—Dr. J. D. Whitmire was held up by two footpads three miles below Arthur City while he was driving in a buggy to see a patient and was relieved of a small sum of money. The robbers approached from opposite sides of the road and both presented pistols. They made him get out of the buggy and step behind it. After searching him they made him get back and ordered him to drive away as fast as he could and not look back. The robbers had paper sacks drawn down over their heads, with eye holes.

SMALLPOX IN FAMILY.

In Consequence Judge Simpson Cannot Go to Court.

Wills Point, Tex., Oct. 30.—Advices received here state that District Judge Simpson is quarantined at his home in Gilmer on account of a member of his family being afflicted with smallpox. This will necessarily cause postponement of the regular session of district court at Canton, which has been in progress two weeks and has three more weeks to run.

CHILD FATALLY SHOT.

Cook, Who Accidentally Did the Unfortunate Deed, Fainted.

Guthrie, Oct. 30.—A small child of James Zanders, a cowman near Jet, was instantly killed by the accidental discharge of a revolver which the ranch cook was handling. Following the discharge of the weapon the cook fainted and when revived called for a doctor, believing she had shot herself.

LEG TORN OFF.

Peter Rogers, an Aged Man, Meets a Dreadful Fate.

Cameron, Tex., Oct. 30.—Peter Rogers, an old citizen of his county and highly esteemed, was fatally injured by his horse becoming frightened near town and running away. He got his foot caught in the wagon and was dragged several hundred yards. One leg was torn off and his skull badly mangled.

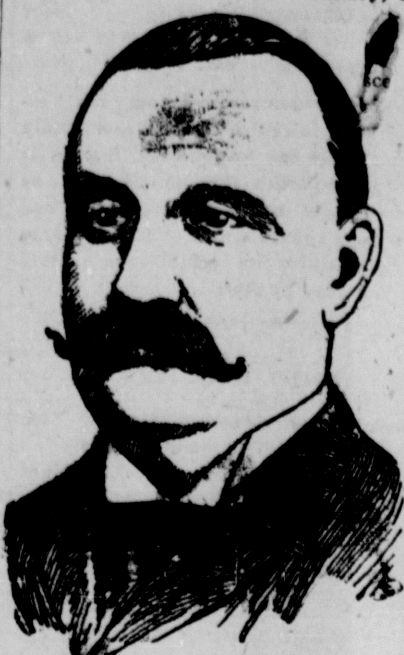

Opens Thursday.

Austin, Oct. 30.—The open season for large game commences in this state Thursday and continued until Jan. 1, when deer are again under the protection of the law.

turned to Chicago Tuesday in the custody of an officer to testify in behalf of Henry W. Hering, former cashier of the bank, whose trial commenced.

PROTECT COE.

Negroes Say They Will Die Before He Is Arrested.

Cloud's Landing, Ky., Oct. 30.—Jesse Coe, a negro, who with George Williams, another negro, killed two policemen and wounded another at Indianapolis Sept. 30, while the latter was attempting to arrest them, is in the southern part of this county, where he formerly lived. It is said that he and other Coe negroes are armed with Winchester and declare they will die before Jesse shall be arrested. The Coe negroes are a desperate gang and for years engaged in a feud with the Taylors, an equally desperate gang of white men, during the progress of which more than a score of men were killed. There is a reward of \$700 for the arrest of Jesse Coe. He served a term in the penitentiary at Nashville for murder.

LABOR SCARCE.

There Is Practically a Dearth All Over the World.

Washington, Oct. 30.—Through their efforts to obtain labor on the work of the isthmian canal members of the canal commission have found that there is a dearth of labor in practically all parts of the world. So great is the demand for labor in connection with railroad building and other improvements on a large scale that countries which formerly have sent thousands of laborers to this country monthly are now using them at home. Leroy Park, the agent for commission who has been in Spain for some months recruiting laborers, has found many difficulties in obtaining Spanish laborers, who have shown themselves so well adapted to conditions in Panama. Many hundreds of men whom he has sent to the canal are writing favorable reports to their friends in Spain and in a short time Mr. Park expects to send a large number of workmen.

CODY MISSING.

It Is Feared Himself and Party Perished in Blizzard.

Chicago, Oct. 30.—A dispatch to the Chronicle from Omaha, says: Fears are entertained for the safety of William F. Cody (Buffalo Bill) and his party of sixteen, who left Cody, Wyo., on a hunting trip in the Big Horn mountains, Oct. 14, and who it is feared may have been lost in the blizzard which swept over the Rockies a week ago. Included in the party are Colonel Stanley of Liverpool, Eng., and three other Englishmen.

A letter was received at Cody, Wyo., early last week from Cody's camp, which was two days' journey from the town, saying that the members of the party were enjoying themselves and expected to return about Nov. 1. The letter as two days on the way to Cody. After that the storm came on and nothing has been heard from the party since.

MARSHAL MURDERED.

Was Attempting to Arrest a Negro Suspected of Much Meanness.

Dayton, O., Oct. 31.—George Basore, the town marshal of Franklin, fifteen miles south of this city, was shot and instantly killed Tuesday morning while attempting to arrest George White, a negro, suspected of being implicated in robberies there during the past two weeks. White was captured after an exciting chase through the town and placed in the town jail. The people are enraged.

BADLY FIRE DAMAGED.

Potter, Ark., Suffers to Extent of Fifty Thousand Dollars.

Little Rock, Oct. 31.—The town of Potter, Ark., was damaged by fire to the extent of about \$50,000. A high wind was blowing and the village was without fire apparatus.

Entertained at Memphis.

Memphis, Oct. 30.—The First regiment of the Illinois National Guard and citizens of Illinois stopped over here from Vicksburg to Chicago. They were met by a company of Confederate veterans and taken in charge by the Chickasaw Guards. The regimental band of the visitors gave a concert on the public square. The visitors were elaborately entertained.

MISS SARTORIS WEDS.

Granddaughter of Late President Grant Marries Florida Man.

New York, Oct. 30.—Miss Rosemary Sartoris, daughter of Mrs. Nellie Grant Sartoris and the late Algonquin Charles Frederick Sartoris and granddaughter of the late General U. S. Grant, was married here Monday to George H. Woolston of Hibernia, Fla. The wedding took place at Calvary Episcopal church, Rev. Thornton F. Turner officiating. Mr. and Mrs. Woolston left immediately on a wedding trip. Mrs. Sartoris and her daughter returned from Europe Saturday. Mr. Woolston is the owner of a large plantation in Florida.

MUCH COTTON BURNS.

Fire at Abbott, Hill County, Does Considerable Damage.

Abbott, Tex., Oct. 30.—Fire broke out at 4:30 o'clock Tuesday morning on the Katy railway platform, burning 200 square bales and seventy-two round bales, besides destroying about two-thirds of the platform and seed house containing fifty tons of seed, the property of the Abbott Gin company. The cotton had been received by the railroad company. One hundred square bales were shipped for Crawford & Byrne of Austin, and the other 100 for Peyton & Co. of Dallas. The round bales were for the Riggins Round Bale company of Houston. The origin of the fire is not known.

"UNCLE AMOS" GONE.

LANGDON RECOGNIZED.

Two Members of the Grand Jury Discharged For Not Qualifying.

San Francisco, Oct. 30.—As a result of today's developments in the superior court, District Attorney W. H. Langdon has been judicially recognized as the incumbent to the office to which Abraham Ruef was appointed. Two members of the grand jury, chosen last week, were discharged for failure to qualify, and seven others are to be examined.

The Caission Fog.

In an air lock it is common practice to note that while unlocking—that is, coming through the lock, and as the pressure is being reduced by opening the discharge valve—a fog accumulates, becoming thick as the temperatures and pressure are lowered. The writer at one time was attacked by the bends, or the caisson disease, after coming out of the old Hudson river tunnel. He was promptly taken into the "hospital," which was nothing but a horizontal tank about the size of a common locomotive boiler. The pressure, amounting at that time to some thirty pounds, was admitted, and it acted instantly to relieve pain and to produce normal conditions. He was told to open the throttle valve and let the pressure out so that he might open the door. As he did this he noticed that the temperature was gradually lowered, and at a certain point, known as the dew point, he was enveloped in fog. The pain returned about this time, so that he shut off the discharge valve and opened the cock, admitting compressed air. The fog immediately disappeared, the temperature was slightly increased and the pain stopped. This condition was repeated several times, so that here is a means by which artificial fog may be produced at will. The same physical laws apply in the production of fog as in the condensation of moisture on the exterior of an ice pitcher or on a window pane in winter time.—Compressed Air Magazine.
